

What Does the Brain Tell Us about Usable Security?

Anthony Vance

University of Hawai'i at Mānoa

Brigham Young University

Given a choice between dancing pigs and security, users will pick dancing pigs every time.

— Felton and McGraw (1999)

The Ukrainian Power Grid Was Hacked Again

January 10, 2017 // 10:07 AM EST

Written by
KIM ZETTER
CONTRIBUTOR

An investigation into a power outage that left customers in Ukraine without electricity for an hour last month has concluded that the cause was indeed a cyberattack, sources tell Motherboard. This would be the second such known hack of a Ukrainian power facility following a [massive December 2015 power outage](#) affecting about [230,000 people](#), which was later blamed on the Russian government.

A photograph of a modern glass skyscraper with the Google logo prominently displayed on its facade. The logo is rendered in its signature multi-colored font: 'G' in blue, 'o' in red, 'o' in yellow, 'g' in blue, 'l' in green, and 'e' in red. The building's glass reflects the clear blue sky and surrounding environment. In the foreground, the bare branches of trees are visible against the lower part of the building.
